**CH. MERRY OF BEAUFIN  
FIRST U.S.A. CHAMPION**

## COVER STORY

All U.S.A. Norwich Terriers are indebted to Percy Roberts, noted agent, handler, and judge, for the role he played in our breed's establishment. Commissioned in 1935 by Mr. Bixby, secretary of the A.K.C., to purchase a bitch in whelp, he instead returned from his mission to England with a pair of three month old puppies. The bitch, aptly called MERRY OF BEAUFIN, proved to be an exceptional Norwich ambassador, the first American Champion and producer, whose descendants are still at the forefront of our breed today - this year's specialty show winner being from her extended family.

In the days when AKC officers were active breeders and exhibitors, Mr. Bixby founded and was first secretary of the Norwich Terrier Club.

### ON COATS BY HENRY D. BIXBY

The real Norwich terrier coat, hard and wiry, but lying close to the body, as it does, sheds dirt easily, I believe that the proper coat is one of the first things for our consideration, as is also size.

The Norwich undoubtedly is, primarily, a hunt terrier, but I believe he has a bright future as a house pet as well. Probably, due to years of selection as a working dog, he is, as a breed, remarkably free from nerves. This is a very noticeable at shows at which most terriers are inclined to be noisy.

Soft coats seem to be in the majority at shows, contrary to standard requirements. This fault is very bad, for the individuality of our breed depends on his flat, harsh coat.

The matter of coat also is something the standard is definite about and rightly so. It says, "Coat as hard and wirey as possible, but lies much closer to the body than a cairn's and is absolutely straight. It is longer and rougher on the neck and shoulders in winter (in full coat) forming almost a mane. Hair on head, ears and muzzle, except slight eyebrows and slight whisker is absolutely short and smooth."

It seems to me that the standard describes a definitely different type of coat than a cairn.

Under "disqualifications," the standard states that trimming is not desirable and should be penalized, which I take mean that the natural coat is wanted and that it should be tighter and closer than a cairn's coat.

More than that, is the standard calls for "slight whisker" and "slight eyebrows" and short hair in head, ears and muzzle, while penalizing trimming, then how is this to be had unless the body coat is very hard, close and tight to the body? The border terrier has more the type of coat wanted than any other breed I know.

There is no question that you can get the coat too flat, but from what I have seen most of the dogs have the opposite trouble-that of too stand-offish coat. If you are not going to trim, the correct type of coat is very important indeed. Size and type of coat are far more important just now than type of ears, straightness of front, or other things that may be important later.

Excerpts from AKC Column  
1938-1940

## **RECOGNITION**

In the beginning non-trim coats were in the majority and Norwich were naturally varnity, prolific, and free from distemper and canine hysteria.

On the eve of Norfolk Terrier recognition, PEDIGREES PLUS shows the gradual development from inter-breeding ear types to separation. It also illustrates the physical changes from working terrier to show dog that have rapidly taken place by line and in-breeding.

If we measure success by ring recognition, both Norwich and Norfolk have won many Groups and now Best in Show awards on both sides of the Atlantic.

Alas, there are also warning signs. Fading puppies, difficult whelping, indifferent studs, swimmers and other physical handicaps are on the increase. Are breeders really trying to produce small game hard-coated terriers with the stamina to follow a horse all day?

It is time to remember our breed's working terrier heritage which eschews the barber's art by being correctly clad by nature.

There is much to accomplish in the next decade and the spirit of hope is strong. Norfolk breeders are forming their own association to preserve the dual attributes of the breed. For information: Mrs. Everett Anderson, Pequotsepos Road, Mystic, Conn. 06355.

## **FIRST BREED STANDARD - 1932**

**HEAD** - Muzzle "foxy" and yet strong; length about one-third less than a measurement from the occiput to the bottom of the stop, which should be a good one and well defined. Skull wide, slightly rounded, with good width between eyes and between ears. Ears, if erect, slightly larger than a Cairn's: if dropped, very neat and small, and correctly dropped.

**EYES** - Very dark, bright and keen. Full of expression.

**TEETH** - Strong, rather large; closely fitting.

**JAW** - Clean, strong; tightlipped.

**NECK** - Short and strong; well set and on clean shoulders.

**BACK** - Short to medium; loin very strong; ribs well sprung.

**LEGS** - Short, powerful, straight if possible, with sound bone, feet round; thick pads.

**QUARTERS** - Strong, with great power of propulsion.

**TAIL** - Medium docked, carriage not excessively gay.

**WEIGHT** - 10-14 lbs. being the ideal.

**HEIGHT** - 10-12 inches at withers (not to exceed)

**COLOUR OF COAT** - Red-black and tan, grizzle and tan, being admitted; white on throat or chest being allowed. Coat is as hard and wiry as possible, but lies much closer to the body than a Cairn's, and is absolutely straight. It is longer and rougher on the neck and shoulders, in winter forming almost a mane. Hair on the head, ears and muzzle, except slight eyebrows and slight whisker, is absolutely short and smooth.

**GENERAL APPEARANCE** - A small, low, keen dog; tremendously active. A perfect demon, yet not quarrelsome, and of a lovable disposition, and with a very hardy constitution.

**FAULTS** - Long, weak back, a mouth badly over or under shot; full eye; soft expression.

**DISQUALIFICATIONS** - Yellow eyes, soft coat or wavy, or curly or silky; a long narrow head; square muzzle. Trimming is not desirable, and should be penalized, rather than encouraged. Honourable scars from fair wear and tear shall not count against.

# THE BLOODLINES BEHIND THE NORWICH TERRIER

By

Jane Buckland

1

At the beginning of this century, Mr. Jack Cooke, Master of the Norwich Staghounds, owned a short-legged, sandy, crop-eared working terrier called Rags, who can be said to have been the progenitor of the modern Norwich terrier.

The breed's history started in the 1880's with Cambridge dealer, "Doggy" Lawrence, who sold small red, or black and tan, Irish-Yorkshire crossbred terriers to undergraduates. A contemporary, Mr. Jodrell Hopkins, had a livery stables in Trumpington Street, Cambridge, and owned a brindle terrier bitch which somewhat resembled a smooth Aberdeen. This bitch was mated to one of Lawrence's red dogs and two of the resultant puppies played an important part in the history of the Norwich. One, a bitch called Nell, Mr. Hopkins kept as the foundation of his own strain of Trumpington terriers and the other, a dog called Rags, was given to Mr. Jack Cooke.

The new whipper-in to the Norwich Staghounds was an Irishman called Frank Jones, who brought with him two little prick-eared terriers, probably of Glen of Imaal breeding. These, together with Tinker, a brindle bitch he bought from Mr. Hopkins, were mated to Rags and were the foundation of the famous "Jones terriers". Later, Frank Jones moved to Market Harborough as rough-rider to a horse dealer called J.H. Stokes who had several Trumpington terriers, and once again the Jones-Trumpington lines were crossed.

Another contemporary, Mr. Lewis Low, of Norwich, owned a Dandie Dinmont-smooth fox terrier cross-bred bitch which he also mated to Rags to found yet another strain. All these "fathers of the breed" were working towards the same end; to produce a strain of small, red, ratting terriers which were game to fox and badger, and were equally suitable as household pets. Rags, described as "the hardest terrier you could wish for," must also have been an extremely dominant sire, stamping his gameness and type upon his progeny despite the variety of their cross-bred dams. "Rough-rider" Jones bought in all suitable puppies, sold them to hunting people from all over the world and gained an international reputation for the "Jones terriers."

Mr. R.J. Read, of Hapton Hall, Norwich, who became the first President of the Norwich Terrier Club, bought a red bitch sired by Rags from Mr. Low in 1909. This was the start of his strain, but, returning after the First World War, he found himself left with two oldish bitches. He mated one to a blue Bedlington, to improve drive, but found the cross detrimental to the coats. He then tried crosses to Staffordshire bull terrier, small Irish terrier, and finally back to Mr.

Cooke's strain. Eventually, in 1929, Mr. Read bred Horstead Mick, a dog which figures in the pedigrees of many of today's winners. Thus the Jones terriers, the Trumpington terriers, Mr. Cooke's, Mr. Low's and Mr. Read's strains all combined to produce the Norwich terrier which was recognized by the Kennel Club in 1932.

Farndon Randolph, whelped in 1948, was the first international champion in the breed and was bred by Mr. W.E. West of East Farndon, Market Harborough. The Farndon dogs were noted for their working abilities, many holding working certificates, and Mr. West's first bitch came from Frank Jones.

Mrs. P. Fagan, of Redhill, Surrey is another early breeder whose dogs came from the Jones terriers and her stock had a strong influence on the breed before and after the last war. Mrs. E.H. Hardy, of Winscombe, Somerset, has a good working strain and her Quartzhill prefix has been consistently successful in the show ring.

Also in Somerset, at Washford, Miss D.E. Tucker, of the Allercombe prefix, has bred five champions since 1946. A brace of her breeding, Ch. Whinlatter Allercombe Have A Go and Ch. Whinlatter Allercombe Task, were the foundation of Miss M. Vaughan and Mrs. C. Fisher's famous Whinlatter kennel at Tempsford, Bedfordshire. This leading kennel has made up to 17 champions in 11 years.

The standard allows either erect or dropped ears and several breeders concentrate upon the latter. They owe much to Mr. V. Page, of Beccles, Suffolk, whose Elsie Spruce and Ch. Waveney Alder have had a great influence on this variety. The President of the Norwich Terrier Club, Miss M.M.S. Macfie, has bred the drop-ears since the early '30's. Her dogs are consistent winners and her Colonsay kennel, at Steyning, in Sussex, is equally famous for the Dalmatians which bear her prefix. Mrs. E. O'Hanlon, of West Runton, Norfolk, is a comparative newcomer to the breed, but her Gotoground kennel has been outstandingly successful during the past few years.

The Norwich is a strong, compact little terrier of good substance and bone, and stands between 10 and 12 in. at the shoulder. The coat is hard and straight, lying close to the body, but longer on the neck and shoulder. The colours allowed are red, including wheaten red, and black and tan or brindle. Provided modern breeders concentrate on temperament, and continue to avoid the show fads of exaggeration and fancy trimming, then the Norwich should become increasingly popular with those who like a game, good humored and intelligent little dog.

## THE "BOXTED" KENNEL

Mrs. Guy Blewitt, Pond House, Boxted, Colchester, is the owner of TOBIT, a big winner and sire of winners, which is at stud and an unfailing stockgetter of the best type of puppy. Tobit and his offspring won seven prizes in three classes at Richmond this year, also four out of five challenge cups. He holds M.F.H. Certificate for Badger, and is as good a worker as he looks. Hard, rich red coat, straight, strong bone; weight 12 lbs. Fee 3 gns.

Puppies usually for sale. Inspection invited. The "Boxted" Norwich Terriers live an ideal, healthy country life, and are workers by nature from puppyhood. They combine all the best strains of blood and are not inbred. They have been very successful in the ring whenever shown. Telephone: Boxted 2.

**TOBIT**

## THE "FARDON" KENNEL

The old original breed of "prick-eared" Norwich Terriers, the property of Mr. W.E. West, "Grey Walls," East Farndon, Market Harborough, Leicestershire. The photograph shows four lovely bitches, all of the real old type, a study in beautiful ears and true Norwich Terrier expression. All are workers, and go to ground down a six-inch drain!

At stud, FARNDON RED DOG, prick-eared, all red. Fee 5 gns. Entered to Fox. This kennel has been breeding this type for over 26 years.

**"THE RIGHT SORT"**

## THE "NEACHLEY" KENNEL

From Neachley, nr. Shifnal, Shropshire, have come many of the most typical specimens of this hard-bitten breed. Chief among these is NEACHLEY RUSTY, the dam of many winners, and as true a type of terrier as one could wish to see. Her son, NEACHLEY RED REYNARD, is next to her in the photograph, and is standing at stud at a very low fee for one of his undoubted quality.

Mrs. Gell has aimed consistently at breeding the short-backed, straight-fronted type, with real terrier character and intelligence, and none but the hardest, reddest coats are to be found in her kennels.

Two puppies have recently been selected to go to America, and so eagerly sought after are puppies from this well-known kennel that there are seldom enough to go round.

**NEACHLEY RUSTY AND  
NEACHLEY RED REYNARD**

**HORSTEAD MICK**

**BIFFIN OF BEAUFIN**

**AIRMAN'S BROWN BETTY AND  
AIRMAN'S SAM BROWNE**

## THE "HORSTEAD" KENNEL

This famous kennel, the property of Mr. R.J. Read, at Horstead, nr. Norwich, has been in existence for nearly thirty years. HORSTEAD MICK, whose photograph appears at left, is a stud dog who has had enormous influence on the breed, having sired such stock as Airman's Storm, Neachley Toffee, and Horstead Nipper, besides many others. His stud fee is 3gns. to approved bitches only. The "Horstead" Kennel conserves the old original prick-eared type; they are quick, small, game, and hard. In short, what is hard to find, the real Norwich Terrier.

## THE "BEAUFIN" KENNEL

The property of Mrs. Mainwaring, Oaklands, Rugeley, Staffs. BIFFIN is well known as a show and stud dog, being the winner of many prizes, including Cruft's 1933, and the Kensington Canine Association's Ch. Show in April, 1934, where he was the best Norwich Terrier on each occasion.

## THE "AIRMAN" KENNEL

The property of Mrs. D. N. Rodwell, Many Windows, Aldham, Colchester (Founder and Hon. Sec. of the Club). This kennel is famous for having dogs of perfect ear-carriage, whether dropped or pricked, though the latter have pride of place. BETTY won a second and third at Richmond Ch. Show this year, and SAM was the best Norwich Terrier, winning the Open class and two Ch. Cups. Other famous winners are Storm, best bitch at Richmond in 1932 and 1933; Tempest, winner at Richmond in 1932 of bet Red Dog and best Puppy, and in 1933 best Norwich Terrier, besides other wins; Horstead Nipper, a new acquisition in partnership with Mr. R.J. Read, is full younger brother to Storm. All these three are prick-eared. Tempest, Sam, and Nipper are at stud at 3 gns. each. The "Airman" Kennel has the unique record of having won the best of sex at Richmond Ch. Show three years in succession under three different judges and in 1933 best in show.

## **CERTIFIED WORKING TERRIERS OF THE PAST & FIRST PRICK-EAR CHAMPION**

CH. FARNDON RED DOG, M.F.H.\* whelped in 1933 by Toodleums x Too Fresh was bred and owned by W.E. West and won the dog C.C. at Crufts in 1936 the day after going to earth on fox with the Pytchley Pack. He was the first prick ear dog champion in the breed. A direct descendant of "Roughrider" Jones' terriers, a prolific sire, his influence is still rife on both ear types. Seven of his get were shown at Westminster in '38 and he was the gr. sire of U.S.A.'s first dog and bitch P.E. champions Rachel and Victor owned by the present still active breeder Mrs. A.C. Randolph, Upperville, Va. Red Dog carried the black and tan gene and drop ears of this color are his descendants.

\*Certificate of Gameness from Master of Fox Hounds

*Drawings by Chris Rice.*

### **LETTER FROM MRS. WEST TO MRS. RODWELL, N.T.C. SECRETARY - 1934**

"On Saturday last Dec. 1, the Pytchley Hounds met at Clipston-near here-and when the Missus and Monica came home from hunting, they said hounds had marked a fox to ground in a small land drain not far away and had left him. I at once sent my groom back with Monica (Monica, I may say is Mr. and Mrs. West's most charming little daughter and a pal of mine. DNR) to securely stop him in for the night. Next morning, Sunday, we set off with a part of the pack to try to get some of the younger ones entered (a nice day for the job it was, teeming with rain and had done so all night). When we arrived there we found the fox had nearly gnawed through the stakes during the night which stopped him in. I had learned from an old farm hand who laid the drain 50 years ago, that it was a straight one and so I decided to put my old dog Toodleum in first on a line so I could get him out for the others to have a go. He met him almost immediately and I had a job getting him out without breaking the line. I next put Red Dog to him who has had some experience, but this time he fairly surpassed himself. He was bursting to get in and after he disappeared all was silent for some minutes, then suddenly there was a tremendous scrap on, but a very long way off. I knew he couldn't stay in all day as he only just

fitted the drain and couldn't turn, so that he would be bound to come out for air. After we got him out we put several of the bitches to the fox who all did remarkably well. I had hoped to put the puppies to him, but it was such a small drain and came to a dead end and was running with water that I decided not to risk them on their first effort although they were keen to have a go."

"We afterwards put Red Dog in again on a thin line (binder twine) and I could feel and hear him battling with the "varmint" and he showed very visible signs of it on his return. How far do you think he went into the pitch black drain and then tackled his foe? You couldn't guess. Of course, it is no record for hunt terriers but for our breed, I think it is. We measured it afterwards and found that it was 31 yards (95 feet) and that Red Dog had traveled up this wet, pitchblack drain and tackled at the end of it. I have spoken to several hunting people since and they all think it a very creditable performance. I was sorry not to be able to take you Nick O'Teen but last Saturday he interfered with Red Dog's harem and paid the penalty. It is only today, the 5th, that he is able to get about at all."

# THE NEACHLEY HERITAGE

5

**NEACHLEY ORANGE** by Ch. Farndon Red Dog, M.F.H. x Judy, a brother of Neachley Sovereign. He is an ancestor of Upland Springs foundation bitch.

**RUFUS THE RED KNIGHT** sire of Colonsay Kola found in pedigree of Bethway's founding dam, Ch. Colonsay Kelly's Eye and as sire of Jericho Topper, M.F.H. an ancestor of Ch. Jericho Pickle and Int. Ch. Dyraaba Foxtrot

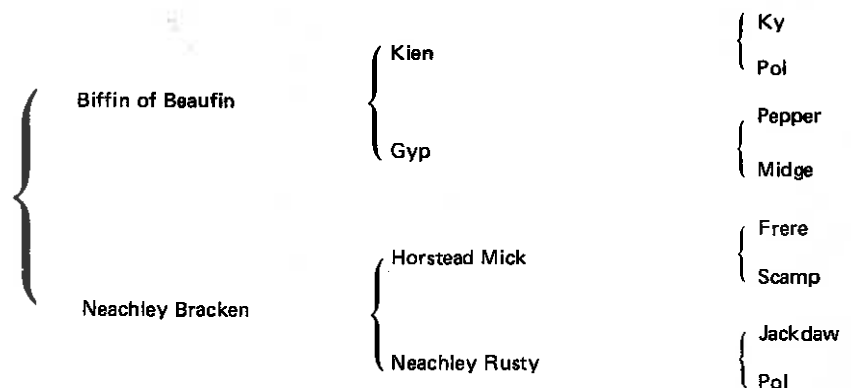

**CH. BIFFIN OF BEAUFIN**, May '32, bred by Hon. Mrs. Hoare, his sire Kien the result of father-daughter breeding. his second owner weighted his ears to make him a drop but he sired both types, was the first breed champion, and sired the first American Ch. Merry of Beaufin. His prick-ear son, RED PEPPER, bred by Mrs. Gell was used by West of Farndon strain, sired first U.S.A. prick-ear champion and was imported in '39. His line-bred descendant, Wychdale Napoleon was a post war stud force.

**Neachley Orange-Rufus the Red Knight-Biffin of Beaufin**

**RED PEPPER '34**

**NEACHLEY RUSTY** - a short compact little bitch with a dense harsh fox-red coat, dead game and willing to tackle anything at any time.

**NEACHLEY BRACKEN** - slightly larger, full of terrier character with prick ears, a real pin wire coat of the true fox-red, a lovely mover, and a brood bitch of the highest class.

**RED PEPPER** - immediately takes the eye as one that is sure to leave his mark on the breed being short and compact with prick ears, a dark eye, and the hardest of red coats. Red Pepper is the father of the first American prick ear Champion Rachel.

# QUARTZHILL RAMPION

6 Ancestor of CHIDLEY, OAKLEY PEMBERTON, RAGUS and UPLAND SPRING

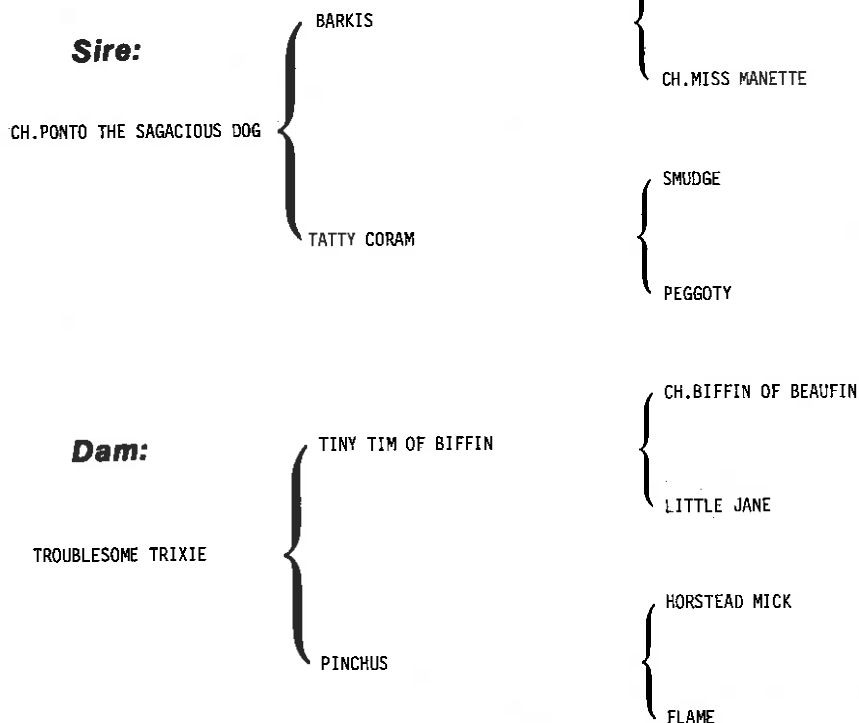

Owned by Mrs. Hardy

Judging by the reproduction of QUARTZHILL RAMPION, Mrs. Hardy is the fortunate possessor of the ideal type of these game, keen little terriers, which are so rapidly growing in favour on account of their toughness, adaptability and gameness without pugnacity, making them just what is wanted for the house, as children's pets, and as vermin dogs. These terriers were bred originally and used as earth terriers, and have been kept in hunting circles since the 'eighties. Mrs. Hardy is anxious to keep pure the strain which she derived from Mr. West's famous kennel, and is out to keep them as small as possible and low to the ground, thus maintaining essential characteristics. Quartzhill Rampion is the ideal as regards size, and yet has a grand body, plenty of bone and substance, and a head which is a true index of his breed; while in harshness he is A1. Bold and fearless, he weighs no more than 11 lb. and is now at stud. Also at stud is another prick-eared dog. WYCHDALE NIGEL, a dog that is siring outstanding puppies of great character and full of promise. Mrs. Hardy has had a great demand for Norwich Terrier puppies through the year, and two were sent to India, where they arrived safely, and they are the first to be imported there. Owners of the dogs she has sold have written appreciatively of the most charming dog they have ever owned, and said: "The easiest dog to train I have ever had; game tough, most obedient, instrumental in killing many rabbits, and very good with a gun." Those who wish to become better acquainted with the Norwich Terrier, or to become the owner of one, should get into communication with Mrs. Hardy.

"Our Dogs" Christmas 1940

# CH. BIGGER BANGER

7

Bigger Banger's dam, Sarah Gamp, is a litter sister of his grand-sire, Rogue Riderhood. His two grand-dams, Miss Manette and Tatty Coram are littermates and this pair are also his great grand-dams. Miss Manette was the first prick ear champion and her sire, Smudge was the first show winner after breed recognition.

## WHINLATTER "C" LINE

8

**WHINLATTER CRACKER** and her son, **WHINLATTER COB**  
Descendants of CH. BIGGER BANGER

**CH. WHINLATTER CHARADE**  
Bred & Owned by Mrs. Muriel Fisher-May

Whinlatter Cracker of Turtillus (7-5-52) won CC at Crufts in '57. One of the breed's all time producers with seven titled Whinlatter get, six being her double descendants. In June '55 she whelped Ch. Cob by Ch. Sandalbeck Lancer. Six months later, bred to her nephew Ch. Whinlatter Tryd, she produced Eng. Am. Ch. Clippa and Canada's first breed champion, Cinda. In '57 bred to son Cob, she produced an outstanding bitch, Ch. Whinlatter Coral and in July '58 she whelped the immortal Ch. Whinlatter Charade sired by her grandson Int. Ch. Whinlatter Allercombe Hiker. Charade went on to sire a breed record of 17 champions. His first public appearance was on television which started a breed fan club. In '61 Cracker had an Eng. champion son, Cain, and a Swiss champion daughter sired by son, Ch. Charade. This breeding was repeated in '61 and produced showgirl Ch. Cider.

# CH. INTERFIELDS HALF-A-BOB, J.W.

## CH. INTERFIELDS HALF-A-BOB, J.W., (Dog)

Breeders: Mr. & Mrs. C.S. Hammersley Owners: Mrs. G. Marks and Mrs. M. Bunting  
Born: August 1st, 1961

### Sire:

Ch. Whinlatter Charade, J.W.

Int. Ch. Whinlatter  
Allercombe Hiker

Whinlatter Cracker of  
Turtillus, C.C.

Ch. Whinlatter Cob

Allercombe Hot Potato

Charing Cross Baccio

Ch. Whinlatter Coral

Int. Ch. Whinlatter  
Allercombe Hiker

Whinlatter Cracker of  
Turtillus, C.C.

When we first saw him we were enchanted. A lovely square, heavy boned, good coated puppy with a short back which was also rare at that time, a truly lovely Norwich head and beautiful dark eyes giving him the true Norwich expression. Of course, we bought him, and were equally enchanted with his name, Interfields Half-a-Bob., known, inevitably from that day to the day of his death as "Tanner". His sire Ch. Whinlatter Charade, was only a young man of 3 years old himself at that time and was only just beginning to make his name as the most succesful sire the breed has ever known.

Tanner was such an easy dog to live with, always ready to go anywhere, where ever you wanted to take him, be it a show, a country walk or a wander around a town centre with a puppy in training harnessed to him. He had a good show career, gaining his title when he was 2½ years old, three highlights of that career being when he won Best of Show at the Club Championship in 1964, when he was placed third in the terrier group at the Southern Counties show in 1963 and again in 1964 when he and his daughter Ch. Ragus Golden Slippers won both CC's at Crufts.

But it was as a sire that he was to make his real mark. He never did come within hailing distance of his father's great record as the sire of 17 champions, although he did father 7 himself, but one has only to look at the pedigrees of today's winners to see his real impact, as there are few of any consequence where his name does not appear several times. He was the grandsire of Ch. Ragus Golden Chip, the sire of Ch. Jericho Gold Sovereign and Ch. Jericho Gold Crest, in the same litter. His daughter Ragus Two Penny is Ch. Thrumpton Lord Redwood's grand dam and he was also grandsire of three brood bitches, Foxybrook Egg Flip, Foxybrook Elite and Little Princess of Thrumpton who have given wonderful results to their kennels by producing such champions as Ragus Fair Dinkum, Ragus False Colours, Ragus Lothario, Thrumptons Lady Rebecca and Thrumptons Lord Rickie. He appears five times in the pedigree of Int. Ch. Waleric Strongbow and 3 times in the pedigree of Ch. Culswood Bargrange Penny Wise and so it goes on. Any stabilization of breed type there has been in the last decade has been more because of his influence than for any other reason.

## CH. JERICO PICKLE

10

A daughter of Jericho Red Mischief and Ch. Jericho Hill Vixen, Pickle is descended on her sire's side through both his sire dam to my first Norwich terrier, Neachley Tan, some five or six generations back, and is great grand-daughter on one side and a grand-daughter to Am. Ch. Farndon Romeo. I attribute the lovely rich red harsh coat which needs the minimum of tidying and for which my kennel is known, to Romeo. Pickle has passed this lovely coat to most of her descendants.

Pickle was one of a litter of six; two of her brothers did well. Piper became a Dutch champion and started the breed in Holland and Dean and Louise Bedford bought Poacher and used him in their Pemberton Kennel.

Pickle was a wonderful brood bitch, an easy whelper, and wonderful mother. There appear to be four main lines of descendants. The first litter was by Ch. Jericho Whinlatter hemp of four puppies and I remember Tom Gately calling to see me and trying to buy one of them called Pixie, but I wanted to keep her so he took Portia back to the Longways kennel with him, and she won her title and went on to be Best of Breed at Westminster in 1967. Another sister, Parsley, won two CC's, but when she was mated to Rogue, a grandson of Pickle's, produced Ch. Jericho Tuppeny who became the foundation bitch for Mrs. Thacker's Daffran Kennel and was the mother of In. Ch. Daffran Darkie Octem, and also of Ch. Jericho Daffran Penny Farthing, the dam of Int. Ch. Thrumpton's Penny Red, a stud force in Sweden; Penny Farthing's brother Jericho Treble Chance is the grandshire of Int. Ch. Whinlatter Clockwork and his sister, Ch. Whinlatter Clockwise. Pickle's second line of descendants is from the mating to Ch. Jericho Gay Rascal and from this union there were four puppies of which the two brothers, Jericho Ringleader, owned by Mrs. Randolph's Oakley kennel and my stud dog, Jericho Rogue, were the best. The mating of Rogue to Ch. Jericho Gingernut produced in the resultant litter Ch. Jericho Golden Honey, the foundation bitch for Mrs. Celyn-Jones's Hoylebank kennel. What a wonderful foundation bitch she has been. There were six puppies in her first litter only one of which was a bitch but what a lovely one she turned out to be, Ch. Hoylebank Honey Bear became the first Norwich in England to be placed Best Opposite Sex in Show at a championship show, and is now the dam of Ch. Hoylebank Bos'n, the sire of two sensational sons who made their debut last October each winning their classes and one going to Reserve CC.

The third line of Pickle's came from a special request by Betty Fell who was staying with us that she (Pickle, I mean) should be mated to Jericho Thrupence of Badgewood and this proved to be an excellent choice, two of the litter having done well. Badgewood Penny A Pickle belonging to the Fells, bred them some good puppies, including Ch. Badgewood Braken and Daffran Jericho Patti bought by Mrs. Thacker proved to be a prolific and easy whelper. She is the dam of Ch. Daffran Rufus and granddam through Rufus of Ch. Ragus Garrick (now in Sweden), a youngster who swept through to his title in very quick time last year; he too has the rich red harsh coat.

The fourth line is from the union with Allercombe Tin Tack and then through their daughter Peppercorn, the granddam of Ch. Colycroft Russet Fern, the Best of Breed at Crufts in 1972.

I have kept a line from Pickle through her daughter Pixie and grand-daughter Ch. Jericho Posy. A daughter of Posy's called Pure Magic and son, Prophecy, are both Swedish and Nordic champions. Another daughter, Pink Gin, became a champion in Holland and a grand-daughter is Am. Ch. Jericho Pop Star. My senior stud dog, Pure Red, is a son of hers and his son Gee Whiz is junior stud dog, and I have another daughter called Happy who was much admired by Constance Larrabee when she was over here last year.

When Pickle was seven years old a friend of mine had lost her old Sealyham and was feeling very bereft so I agreed to let her have Pickle on the understanding that if she did not settle she should be returned to me at once. About ten days later I had a telephone call and my friend said "I think Pickle has settled. She sleeps in a chair beside my bed and in the morning when I go and have my bath and return, I find her in my bed with her head on the pillow and her eyes tight closed".

**ENG. AM CH. FARNDON RANDOLPH (1948-1964)**

The all-time U.S.A. record producer of 19 breed champions and first of breed to place in Terrier Groups. Photographed in his eleventh year, he hails from the certified fox bolters and ratters around Market Harborough. "Roughrider" Jones bred his ancestors. He died, the beloved pet of the Dean Bedfords at the age of fourteen years.

**CH. WYCHDALE NAPOLEON (1946-1952)**

The cornerstone and first Norwich champion at Pemberton was a dual C.C. winner and proven sire before he left England's Quartzhill kennels.

Nap was the result of an uncle-niece union and had ancestors of mixed ear carriage. He was line-bred to both Ch. Biffin of Beaufin and Ch. Farndon Red Dog with crosses to Smudge and Babbling Binks.

Endowed with a harsh grizzle coat, a fearless temperament, and the ability to sire black backs, he passed this trait to his two famous sons: Eng. Am. Ch. Quartzhill Hemlock and Ch. Upland Spring Demon.

Napoleon's breed influence was unique and lasting. His invincible Upland Spring Brace, Ch. Connemare and Ch. Demon, topped specialty shows and Terrier Group Braces at New York, Chicago, and Boston. Then in the late 50's his American-bred grandson, Charing Cross Baccio, joined the Whinlatter Kennel when his embassy manners were found wanting. At Whinlatter, the C line get all shared Napoleon as a common ancestor and he proved a productive cross for Cracker, Cob, and Charade offspring. Among his champion get was the first black and tan champion and the Culswood foundation dam, Cariad.

It is sad to report Pemberton did not benefit from this great dog but King's Prevention, through Ch. Hardy Bear, has sprinkled his American descendants across the states.

## THE PEMBERTON HERITAGE

13

THE LATE MR. & MRS. DEAN BEDFORD WITH BILL SYKES' KIN

**"NANNY"** (CH. QUARTZHILL ANEMONE) AND HER LITTER BY  
CH. FARNDON RANDOLPH - WINNING WESTMINSTER TEAM 1952

Steeped in the sporting tradition, this devoted family pair shared a life-long love of horses, dogs, and children. They were both Masters of Fox Hounds and Beagles, and established the United States Pony Club, a national educational organization for young horse lovers. "Jones" owners since marriage, they founded the Pemberton Norwich on superb imports.

Helpful, generous, modest, and sporting, they handled their own dogs when ever possible and encourages new breeders with friendly advice and reasonable stud fees.

Louise Bedford was the only American to award Challenge Certificates to Norwich and she did so twice, including Crufts.

**King's Prevention Britina**  
dam of

**Ch. King's Prevention Serena**  
(by Int. Eng. Am. Ch. Ragus Rainmaker)

1st bitch to win a Terrier Group 1970 specialty and Westminster winner and leading Norwich of her day.

Ch. Upland Spring Magpie (Ch. Upland Spring Jock x Pink Lady) was bred by Mrs. Howe Low and became the foundation bitch of King's Prevention Kennels. Bred eleven times to eight different studs, she produced 27 puppies of which two dogs and eight bitches were champions.

"Ch. Upland Spring Magpie, in the ever-changing world of shows, people and puppies, was the rock of King's Prevention. Shortly before her death, she led a parade of forty progeny representing four generations at the 1971 match. The foundation stock of eleven established Norwich lines are descended from this sturdy bitch. Through her wealth of offspring, sound in body and temperament, she has made a lasting contribution to the American Norwich scene."

Constance Stuart Larrabee

**"Go Forth and Multiply"**

Constance S. Larrabee with Magpie's King's Prevention descendants.

# CH. RAGUS GOLDEN CHIP 1966 - 1972

15

His pedigree reveals line breeding to Ch. Interfields Half-A-Bob, the most influential of Ch. Whinlatter Charade's get. Like most great dogs he had great character and was noted for his substance and powers of propulsion. He ran the Ragus Kennel where his position of Top Dog remained unchallenged throughout his short prepotent life. He sired nine English champions, listed below, which have had an impact on show Norwich around the world.

# EARLY ROOTS

82

**BABBLING BINKS**

**BABBLING BINKS** is the common ancestor of drop-ears Tiny Tim of Biffin and Am. Ch. Merry of Beaufin who carry the black and tan genes, and prick-ears Ch. Bigger Banger, Quartzhill Rampion, and Wychdale Nucleus, all of whom carried the black and tan gene.

**AIRMAN'S SAM BROWNE**  
July 17, 1933

WINN  
EXCLUS  
COMPLETIN

American Champion dog, Ch. Applejack. The first American drop-ear champion dog, black and tan, is also his descendant.

# CH. RED WRAITH

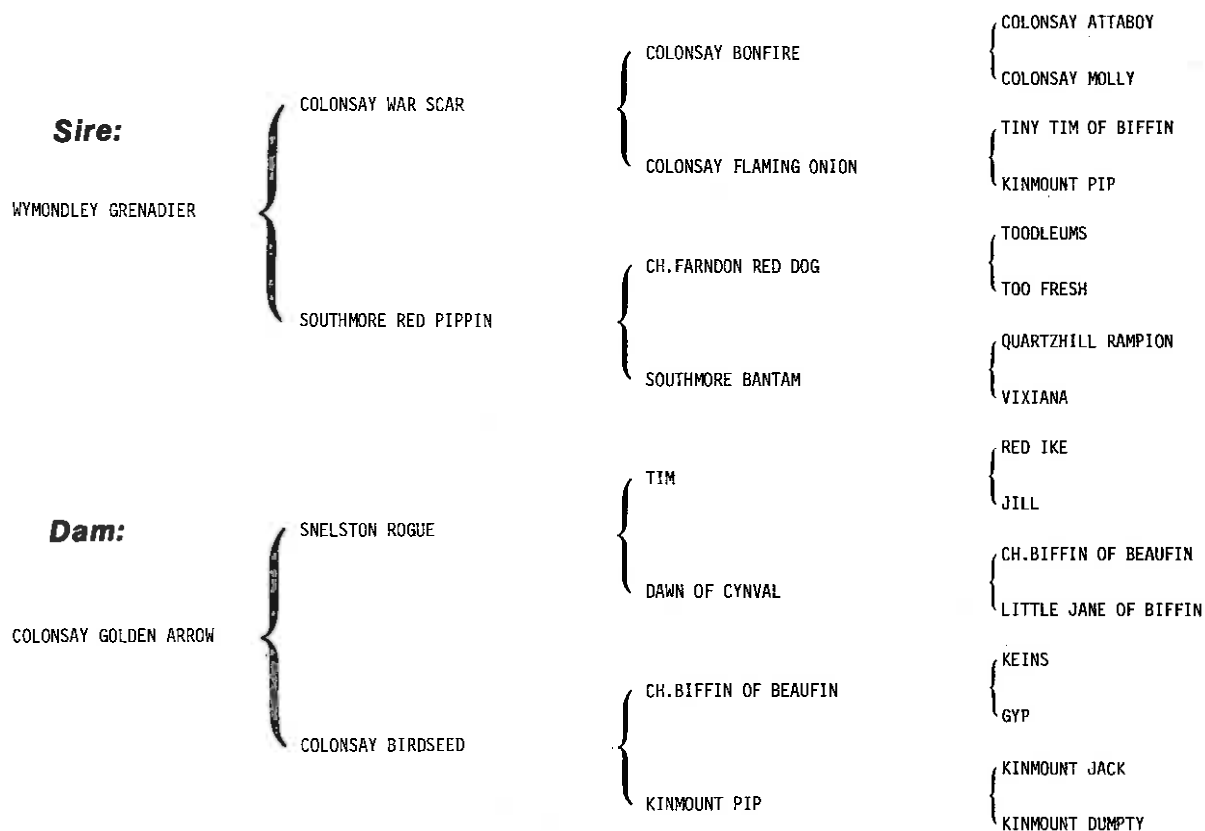

83

**Ch. Red Wraith** was bred and owned by Mr. P.G.Anguish, Ipswich, Great Britain.

Born June 14, 1946, common ancestor of today's black and tan Norfolks, he carried the black and tan gene through his prick-eared ancestors, Farndon Red Dog, Quartzhill Rampion, as well as Tiny Tim of Biffin.

...considered "a lovely dog and to my mind a perfect type, excels in head with neat correctly carried drop-ears. A gorgeous rich red coat and looks like tackling any job he is asked to do."

extracts from judge  
Mrs. A.F. Mirrlees  
December 1947

**Ch. Red Wraith** was the first post-war drop-ear champion. His black-backed grandson, Hunston Holy Smoke ('52) was an important link during the next decade and despite the universal color prejudice of the day, had show ring successes. His other important descendant who also carried the black and tan gene, was Elai Spruce, a compack extrovert and the most dominant sire of the fifties.

## **CH. ICKWORTH READY      1967-1972**

Few dogs reach such heights in our breed and though he lived his brief four-plus years in England, Ch. Ickworth Ready will long be mourned on both sides of the Atlantic. The result of mother-son breeding as a sire he begot 5 English champions, two of which have Int. Scand. titles. He also sired a pair of American champions. His daughter, the leading English brood bitch, Ch. Ragus Brown Sugar, is the dam of five champions, while one son, Inc. Ch. Ickworth Kythe of Ryslip, since his return from Sweden, is again among the top English stud dogs.

Ready was bred by Mrs. Rhalou Kirby-Peace, a noted breeder-judge with an inherited eye from her father, the originator of the Bruce-Low theory on inheritance.

"Ready's" record includes first and second in terrier groups at Glasgow and Windsor championship shows; three BIS all breeds at open events, and seventeen CC's. He never lost to another Norfolk when judged by breed specialists who universally found him a live example of the standard ideal with a compelling personality to match the perfection of his form.

## **CH. NANFAN HECKLE      1963-1976**

Heckle was the foremost example of a well-planned "nick" that produced champions in three litters (Am. Ch. Nanfan Hoppocket, Swedish Ch. Nanfan Hoppicker, Ch. Nanfan Halleluia, Eng. Am. Ch. Nanfan Hayrake, R. Ch. Nanfan Haydolly). As his dam's milk failed, he was hand reared four days after whelping, and was never sick or sorry in his life. Perhaps he became a supreme personage and producer because of the innate assurance he gained as a beloved "orphan" of the exuberant Taylor lads and because of the dedicated care of his breeder, Joy.

He retired from ring competition in '68 after gaining 6 CC's and three record setting Best of Breeds at Crufts.

Prolific, virile, and dominant, he remained king of his own realm until he died in his sleep. It shall soon be impossible to find a Norfolk pedigree without his name. Heckle was a lucky dog, appreciated by his owners and other breeders. Both used him wisely to perpetuate the best of his breed's heritage.

He left a dozen English champions to his credit and three of these also have AKC titles: Nanfan NogBad the Bad, Nanfan Nyiad, and Badgewood Bonnie. Nogbad bred to his full sister Nyiad's daughter produced an outstanding winner-producer, Ch. Mt. Paul Rowdy.

Heckle's last Nanfan Champion Sweetapple won a Terrier Group and has a Swedish champion littermate. With six champions of each sex, his daughter Ch. Nanfan Snapshot is one of the three leading brood bitches with 5 champions to her credit including an English and International champion.

## 85

A black and white photograph of a small, scruffy dog, likely a terrier, standing in a field of grass and low vegetation. The dog has a wiry, shaggy coat and is looking towards the left.

## FOUNDING A NORFOLK LINE

88

Colonsay was the stronghold for drop-ears during World War II. These dogs, placed to work on neighboring farms, held the record for 150 rats during an afternoon's threshing. There was local demand for these thrifty keepers. Discouraged by the drop-ear ring defeats and changing show type of prick-ears, Miss Macfie led the movement to breed separation, accomplished in 1964, shortly before her death.

**TINY TIM OF BIFFIN**

**CH. BIFFIN OF BEAUFIN**

**LITTLE JANE**

**TINY TIM OF BIFFIN** (Ch. Biffin of Beaufin x Little Jane) became the founding sire of Miss Macfie's Colonsays in 1935. He carried the black and tan gene and was reportedly "a small hard game sort, full of terrier character"

**CH. BIFFIN OF BEAUFIN** - good headed with dark eyes, pronounced stop and hard wiry close-lying coat of rich red. He was short backed, had heavy bone, and lacked rear angulation. He got his championship at 3½, just three years after breed recognition in 1932. His two most influential sons were Miss Macfie's drop-ear, Tiny Tim of Biffin and Mr. West's prick-ear, Red Pepper. His daughter, Ch.Merry, is on the cover.

**LITTLE JANE** (Carr x Susan) excelled in head, expression, and coat. She is also the dam of David Copperfield, a prick-ear influence and daughter Dawn of Cynval who strongly influenced the Colonsays through her son, Snelston Rogue.

## FROM COLONSAY TO BETHWAY

89

**Colonsay Fag Waggoner, We Three, and Flip** (right side) were sire, grandsire, and common ancestor of Ch. Colonsay Kelly's Eye, the foundation bitch for the Bethway Kennel in 1954.

**Ch. Colonsay's Kelly Eye** from whom all Bethway dogs are descended.

**Ch. Bethway's Tony** (Hunston High Flier X Ch. Colonsay Kelly's Eye) the only American grandson of Ch. Waveney Valley Alder and the sire of 5 Bethway Champions.

**Ch. Colonsay Kelly's Eye** holds the all time brood bitch record with 6 drop-ear champions from 3 different studs.

Barbara Fournier with **Chs. Bethway's Scarlet and Cricket**, producing granddaughters of Ch. Colonsay Kelly's Eye

## BEST IN SHOW WINNERS

120

After 42 years of recognition (1936-1978) only three Norwich and one Norfolk have won Best In Show. All were dog champion in England before entering the ring here and two were proven producers there. One, Chipwood, has returned to his breeder after a prolific year (1976-1977) in the U.S.A.

# OBEDIENCE UTILITY DOGS

121

Obedience Degrees are awarded to dogs trained and conditioned to behave in the home, public places, and in the presence of other dogs. To gain a Utility Degree, dogs must obey silent signals as well as commands and perform scent discrimination plus retrieving tests both on the flat and over hurdles. All six U.D. Norwich are on this page.

Norwich Terriers were imported to Sweden in 1964. Among the first was the great little dog, Eng. & Int. Ch. Whinlatter Herald J.W., who made a lot of friends for the breed here. Norwich Terriers are becoming very popular in Sweden; in 1977 Joy Taylor judged a record Norwich entry of 84 dogs at an all breed event. The two dominant sires in Sweden are Eng. & Int. Ch. Waleric Strongbow and Eng. & Int. Ch. Thrumptons Penny Red (Ch. Thrumpton Lord Redwood x Jericho Daffran Penny Farthing). A lot is hoped from Eng. Ch. Ragus Garrick (Ch. Daffran Rufus x Ch. Jericho Griselda). He should be a good complement to Strongbow's and Penny Red's offspring.

Another with relatives in the U.S.A. is brood bitch, Int. Ch. Ragus Lavinia, as her full brother is Eng. Am. Ch. Ragus Lothario. Lavinia has produced 4 champions so far and three of them have been placed in groups.

In the 14 years since introduction of Norwich Terriers, entries have topped even our own. At the 1978 supported show, a Swedish homebred champion son of Strongbow, Cobby's Touchwood, topped an entry of 104 dogs under English judge Pauline Ford.

In 1954 Mrs. Hammarlund introduced the breed with Swedish Ch. Colonsay Red Mouse and two Colonsay bitches. Next the Samdemar Kennels imported Swedish & Finnish Ch. Nanfan Hoppicker; one of a famous union that produced six champions including the immortal Ch. Nanfan Heckle and U.S.A. Ch. Hoppocket. In 1966, Elizabeth Matell returned from her stay at Nanfan with Nonsense and also purchased the first Swedish bred Champion, Ch. Dallas Nickle Note by a Gotoground Moley grandson x a Ch. Minx of Furzyhurst daughter. Withalder, Hanleycastle, Ickworth and Ragus dogs were selected by future breeders and have multiplied and thrived. Two English-Scandinavian champion sons of Ch. Ickworth Ready are currently popular stud dogs.

1. Ragus Buttermilk from Reddy's last litter has produced two Swedish Champions, Rough 'N Ready and Butterscotch, since he arrived there, while in England, his champion son, Ickworth Peter's Pence was the top winner for 1976. Peter's Pence has since come to the U.S.A.

2. Ickworth Kythe, who has spent three years in Sweden, returned to England, a Swedish champion and soon gained his title. He sired last year's top winning Norfolk Champion, Ch. Ickworth Pretty Piece and was the third leading stud dog.

MISS MATELL'S TOP WINNING DOG  
INT. & NORDIC CH. CRACKNOR COMMUNIST

With Miss Elizabeth Matell's move to England in 1978, we will see three more Swedish champions in competition. Nanfan's Sweet Corn (Ch. Nanfan Heckle x Nanfan Sickle) was the leading Swedish Norfolk in 1976. His kennelmate, Ch. Cracknor Capricorn x Nanfan Tangle, has an American-bred granddam, Foxhunter Tally Ho. Ch. Garland Bouquet, by Ch. Nanfan Heckle, was best bitch at the '77 specialty and completes a trio of titled immigrants.

Recently, Ch. Hubbestad Wee Johan (Eng. Int. & Nordic Ch. Nanfan Spikeman x Int. & Nordic Ch. Ickworth Jewel) was pronounced an outstanding Norfolk by a visiting American judge. Int. Ch. Nanfan Spikeman is currently a leading scandinavian stud with nine champions and five CC winners to his credit.

The Swedish active breed club was founded in 1973 and publishes an excellent illustrated quarterly newsletter. The club president is Kenneth Eliasson and secretary is Lena Vikbladh, Norrbackgatan 24V, 113 41 Stockholm, Sweden.

# SWITZERLAND

124

In 1953, Madam Hintermann imported her founding Tobermory pair and the breeds' first continental champions, Quartzhill Spice, a grandson of Ch. Bigger Banger and Poppy of Eildonbrae, a Ch. Farndon grand-daughter whose sire was also Ch. Bigger Banger.

The origins of present Swiss Champion Tobermory Gamble were firmly based on Farndon and Fagan stock six generations back of the female tail line. Gamble is also an international celebrity with 14 CACIB certificates from 12 different judges in Germany, Austria, France, and Italy. In 1974 he was World Champion in Paris and he also won the Terrier Group at the International Show, Wohlen.

His extended pedigree shows Whinlatter Cracker of Turtillus in every quarter; eight times in six generations. His grand-dam, Ch. Whinlatter Jin was a sister to the Hannings' USA Ch. Whinlatter Johnnie by Ch. Whinlatter Charade x Ch. Whinlatter Janet. The sire of Ch. Tobermory Roxy was another Swiss Champion and Whinlatter import, Crest; the result of breeding Ch. Charade back to his dam.

# CANADA

## SEPARATION CANADIAN STYLE

On June 21, 1977, the Canadian Kennel Club voted that the registration of Norfolk Terriers become effective immediately, but they failed to provide a way for already registered drop-ear Norwich to be pre-registered as Norfolk Terriers, if they already had Canadian or American Kennel Club numbers. In fact, they voted against retroactive registrations, refused to research their kennel clubs' records of drop-ear registrations, and adopted temporarily the English Norfolk standard for judging.

As no Canadian Kennel Club stud book has been published since 1968, no lay research can be conducted and to compound complications, many breed records were lost during the computer system changeover.

Currently, an English bred Norfolk bitch mated to a U.S.A. Champion D.E. have drop-ear offspring who must compete as Norwich Terriers. Judges now can have both Norwich and Norfolk with ears down in the Terrier Group.

## ***ON INHERITANCE***

The cliché "like begets like," is most deceptive. Breeders are often surprised when the litter expected from mating a good bitch to a leading winner doesn't give them puppies equal to the quality of the parents. They have overlooked the influence of the ancestors, and though it is true both sire and dam transmit an equal number of genes to each puppy in a litter, the selection is random and there is no guarantee they will inherit similar traits that duplicate the general appearance of the living parents.

Mendel teaches us that a living organism creates other living organisms and that the gene is the unit of inheritance. By separating these genes into two categories, dominant and recessive, the dominant gene takes over and pushes back the recessive, burying it. However, the recessive will emerge eventually when least expected because a similar gene appears in the other sex. It is therefore most important to know the background of stock before one practices line or inbreeding, as this intensifies faults as well as virtues and can only be successful when practiced with animals of sound physical and mental qualities.

"Inbreeding is the golden key to successfully producing countless champions. This same key in the hands of someone without sufficient knowledge may well open a 'Pandora's Box'. The dangers let loose will be hard if not impossible to avoid in the future and could adversely affect the breed as a whole."

Muriel Fisher-May  
"Whinlatter"  
1964 Norwich Terrier Club Handbook

## ***HIP DYSPLASIA***

Among the inherited health and orthopaedic problems occurring in the breed today is Hip Dys (bad) plasia (form).

Dedicated breeders are frank about their own stock and recommend x-ray diagnosis for obviously poor movers.

Fortunately, small breeds rarely develop joint disease as a consequence of hip laxity. Therefore, dysplastic Norwich/Norfolk can lead almost normal lives as pets but it is advisable to have them neutered.

Laetans Belgrave	27		
Lyndor's Mister (Ch.)	103		

Terrier trials are sponsored by the American Working Terrier Association. An artificially dug earth is used for testing a terrier's willingness to go to ground, and its reaction to the caged quarry at the end of the earth. Certificates of Gameness are given to dogs qualifying in the artificial earth.

The AWTA also encourages its members to hunt afield with their terriers by issuing Working Certificates to terriers working in natural earths, and Hunting Certificates to those used regularly for above hunting.

Information about this Association may be received by contacting: Patricia Adams Lent, Dogwood Cottage, Route 2, Franklinton, N.C. 27525.

## PUBLICATIONS OF INTEREST

**Additional copies of Norwich and Norfolk Pedigrees Plus  
.....\$10.00**

Mrs. Curtis S. Read, 48 Berry Hill Rd., Oyster Bay, N.Y. 11771
